COMMENTS

No main breeding site was located. All nest sites were just single ones in private buildings.

This population is very small and very vulnerable given that the only nesting pairs are in a privately-owned houses.

Maximum number of birds seen flying (screaming party) was 7 on 29 May 2016.

MAP OF KILLORGLIN

KILLORGLIN SITE 1 : ST JAMES' CHURCH, MILL ROAD

BREEDING PAIRS = 2

There appear to be 2 nest site entrances here and maybe more.

KILLORGLIN SITE 2 : MARKET STREET

BREEDING PAIRS = 1

There is one nest site in this building under the eaves between the rafters. The building has a 'Sale Agreed' sign in May 2016. It would be important to ask the new owner to keep the nest site should any renovation work be carried out. It is possible that there are nest sites at the rear of this building.

KILLORGLIN SITE 3 : SUNHILL ROAD, DISUSED 'THE DAIL BAR'

Nest Box Project Intalled in 2015

NEST ENTRANCES = 0

This is a Nest Box Project with 4 Schwegler Triple Cavity nest boxes. The boxes were installed in 2015 and it may take a couple of years before swifts breed in these boxes.

KILLORGLIN SITE 4 : COMMUNITY CENTRE AT MILL ROAD/MARKET STREET JUNCTION

Nest Box Project Intalled in 2015
